

# Retail Human Resources Trends for 2018 Order Form

Retail Council of Canada (RCC), in partnership with Morneau Shepell, is pleased to present the findings from the Human Resources Trends survey of the Canadian Retail Sector. The survey was focused on the key cost, productivity, and engagement factors that drive success for retail clients and their people.

In this report, we look at some of the top Human Resources priorities as identified by survey respondents. It is our hope this summary report will prove useful to RCC members seeking a fuller picture of the Total Rewards and Organizational Health and Productivity landscape, as seen through a wider industry lens.
